Please indicate the total amount of Title V funds to be spent on salaries for teachers to reduce class size:

\$ _____

*FTEs refer to full-time equivalents. For example, if 50% of a full-time teacher's salary is paid from Title V, and 50% from another source, you would indicate .5 FTEs. Another example is a teacher who works 1/3 day and whose entire salary is paid by Title V; the FTEs would be .33.
